

# The Cutting Edge

With 80 degree weather in late February and several heavy snowfalls this month, March madness applied to more than just the NCAA basketball tournament but our March 18 surgery day was nothing but calm. Seven patients received life-changing surgeries and we are grateful for **Dr. Andy Moore, Dr. Michael Moore, Dr. Paul Kearney, Dr. William Cavatassi, and Dr. Trevor Wilkes** for sharing their time and talents with us this month. Thank you also to the team of wonderful volunteers that spent their Sunday with us to help our patients. We can never thank you enough!

Gratefully,

Amanda Ferguson  
Executive Director

## Volunteer Spotlight

March's Volunteer of the Month is **Rachel Weaver**. Rachel's first experience with Surgery on Sunday was in 2011 when she completed an internship with Dr. Mike Moore for college credit. She has been volunteering on surgery days in check-in/check-out, and pre-op, and with many of the fundraising events. She served on the committee for The Perfect 10 this year and played a big role in its success.

Rachel is from Wilmore and graduated from Centre College. She is currently in her first year in the University of Kentucky Physician Assistant program. She has been married almost 4 years to her husband, Mike, and she says they agreed when they got married that they would be UK basketball fans and UGA football fans.

Rachel, along with her mother, makes pottery in her spare time in their studio and finds it a really rewarding hobby. Rachel says the best part about volunteering for Surgery on Sunday is "taking action to help people, rather than sitting around complaining about the broken healthcare system and politics." She believes SOS "proves that solutions exist where people are willing to work together."

Thank you, Rachel, for all you do to help Surgery on Sunday and our patients!
